

“GARDA DOLOMITI SUPERFISHING” PERMIT

From Lake Garda to the Brenta Dolomites

The permit allows fishing in dozens of bodies of water, including lakes, rivers, streams, creeks and canals - both at high altitude and at the bottom of the valley - and to immerse yourself in breathtaking views with the backdrop of the Dolomites, a UNESCO Heritage Site. Several sites are open all year round.

The permit has been designed for and dedicated to NO-KILL fishing enthusiasts who can deploy different techniques and baits to catch many species of fish including Arctic char, marble trout, rainbow trout, brown trout, lake trout, grayling, whitefish, pike, chub, and perch, just to name the best known.

The fishable waters are located across the greater south-western Trentino area, and constitute the largest provincial fishing “consortium” to which the following local associations belong:

1. **Associazione Dilettanti Pesca Sportiva Molveno** – 2 lakes – www.salmerinomolveno.it
2. **Associazione Pescatori Alto Chiese A.S.D.** - 37 sites including 5 artificial basins, 8 Alpine lakes and 24 fishing areas – www.associazionepescatorialtochiese.com
3. **Associazione Pescatori Dilettanti Alto Sarca** - 20 sites including 1 artificial basin and 6 no-kill zones – www.altosarca.it
4. **Associazione Pescatori di Storo** - 8 sites including 3 lakes and ponds – www.pescatoridistoro.com
5. **Associazione Pescatori Dilettanti Valle di Ledro** – 1 lake – www.pescatorivallediledro.com
6. **Associazione Sportiva Pescatori Dilettanti Basso Sarca** - 17 sites, of which 3 lakes and 4 NO-KILL zones – www.apbs.it

ART. 1 – MOBILITY ACROSS FISHING AREAS

a) Permit holders can fish - within a single day - in one or more fishing areas among those listed in Art. 7.

b) **IMPORTANT:** before starting fishing in each individual area, fishermen must report the selected fishing area on the Trentino Fishing APP.

ART. 2 – FISHING AND FISHERMAN BEHAVIOUR

- a) Fishing is only possible upon issuance of the fishing permit purchased on the Trentino Fishing portal.
- b) The permit is personal, non-transferable, and valid only on the days printed on it.
- c) Fishermen must comply with all fishing bans put in place by the Province of Trento, or by individual associations for particular events.
- d) Fishermen must be polite towards other fishermen and show respect to the supervisory staff.

- e) Maximum respect for other people's property is recommended.
- f) **In the concessions of Pescatori Dilettanti Alto Sarca is mandatory to fish without entering the water until March 30; in those of the Association of Pescatori Alto Chiese the same limit is extended until April 30.** but wading is permitted as long as you are not fishing.
- g) Upon request of local supervisors, fishermen must hand over documents certifying their authorisation to fish; those who fish from boats must reach the shore if they are requested.
- h) At the request of the supervisory staff fishermen are required to immediately spool the fishing reel, showing bait and equipment used.
- h) To facilitate the necessary inspection, fishermen must open portable containers or other means of transport with the exception of those constituting places of private residence.
- i) Both in boats and on shore, fishermen cannot hinder other fishermen already on the site.
- j) It is strictly forbidden to leave behind waste of any kind in the fishing areas both ashore and in the water.
- k) All fishermen must pay utmost attention to any signage stating "possibility of flash floods"
- l) All fishermen must pay utmost attention when using carbon rods or similar alloys near power lines or during storms.
- m) All members are invited to immediately report to the supervisory authorities any hazardous situations and cases of pollution or environmental damage of which they become aware.
- n) Please remember that, in case of emergency, the emergency telephone number for the entire territory of the province of Trento is **112**.

ART. 3 - START AND END OF THE FISHING DAY

Fishing can start one hour before sunrise and end one hour after sunset.

ART. 4 - EQUIPMENT AND BAIT

- a) Access to the fishing areas is permitted only with fishing equipment, landing net and accessories. Other baskets and containers for transporting fish already caught in other areas are prohibited.
- b) The use of only one fishing rod is permitted.
- c) The following fishing techniques are allowed: fly fishing with fly line, Valsesiana fly fishing, Tenkara fishing, Strike Indicator (floating) with dry fly, Terrestrial, Nymph 0 10 Streamer, all practiced with single lure and maximum 2 (two) hooks.
- d) Spinning fishing with rotating, undulating and rapala artificial lures, silicone lures on a single hook or with Spinfly is permitted.
- e) For pike fishing, the use of a steel or fluorocarbon knot with a minimum diameter of 0.8 mm is mandatory. The use of the boga grip (fish windlass pliers) to recover the catch is prohibited.
- f) **All hooks must be barbless.**
- g) The use of natural bait and ground bait of any type is prohibited.

ART. 5 - CATCH AND RELEASE

- a) It is forbidden to retain caught fish.
- b) Every fish caught must be unhooked with the utmost care without ever being taken out of the water. The use of a landing net is mandatory.

ART. 6 - FISHING IN RUNNING WATERS IN OCTOBER

- a) Fishing in October is permitted every day of the week.
- b) TECHNIQUES ALLOWED IN FLY ZONES – 1 single rod rigged with no more than 2 barbless flies (dry or nymph). All other techniques are prohibited. Fly fishing with fly line or “wire”, tenkara fishing and Valsesiana fly fishing.
- c) TECHNIQUES ALLOWED IN FLY/SPINNING ZONES – 1 single rod fitted with no more than 2 barbless hooks. Natural, rubber (soft-bait) and batter baits are prohibited. Artificial lures allowed: Dry fly - Nymph - Streamer (max. 6 cm) [fly fishing with fly line or “wire”, tenkara fishing and Valsesian fly fishing, fly fishing with final float], Metal baits - Minnow - Other rigid baits (max. 6 cm)

ART. 7 – AREAS - FISHING PERIODS – SPECIFIC INFORMATION

Below is the list of fishing areas included in the fishing permit.

The first number of the “Zone” refers to the Association having jurisdiction for the territory listed at the beginning of this document (e.g., 6.A refers to a body of water under concession to the Basso Sarca Amateur Fishermen Sports Association).

ZONE	RIVER / STREAM / LAKE	DELIMITATION	CHARACTERISTICS	OPENING AND OTHER NOTES
1. Associazione Dilettanti Pesca Sportiva Molveno				
1,1	Lago di Molveno	Closed area: Waterfall area, mouth and stream Rio Massò	Alpine artificial lake	1 January - 31 October
1,2	Lago di Bior	Closed area: 1) Stream Rio Lambin 2) 2 days before fishing competition	Alpine artificial lake	1 January - 31 October
2. Associazione Pescatori Alto Chiese A.S.D.				
2,1	Bacino di Ponte Morandino	All	Artificial lake Presence of Brown trout, rainbow trout	10 March - 30 September
2,2	Bacino di malga Boazzo	All	Artificial lake Presence of Brown trout, rainbow trout, perch, burbot	to be defined - 30 September
2,3	Bacino di malga Bissina	All	Artificial lake Presence off brown trout, char, perch and burbot	to be defined - 30 September
2,4	Bacino di Cimego	All	Artificial Lake Presence of marble trout, brown trout, rainbow trout, burbot	Last Sunday of February - 30 September
2,5	Lago Mare		Alpine lake Presence of char, brown trout	to be defined - 30 September
2,6	Lago d'Avolo		Alpine lake Presence of char, brown trout	to be defined - 30 September
2,7	Lago di Copidello		Alpine lake Presence of char, brown trout	to be defined - 30 September
2,8	Lago Nero		Alpine lake Presence of char, brown trout	to be defined - 30 September

2,9	Lago dei Casinei		Alpine lake Presence of char, brown trout	to be defined - 30 September
2,10	Laghetto delle Maresse		Alpine lake Presence of char, brown trout	to be defined - 30 September
2,11	Laghetto delle Scaie		Alpine lake Presence of char, brown trout	to be defined - 30 September
2,13	Bacino Dampone		Artificial lake Presence of char, brown trout, rainbow trout	to be defined - 30 September
2,14	Lago Campo		Alpine lake Presence of char, brown trout, burbot	to be defined - 30 September
2.A	Fiume Chiese	From lago d'Idro to 300 m downstream off Ponte dei Tedeschi (Bondone)	River of thalweg Presence of marble trout, grayling, brown trout, rainbow trout	Last Sunday of February - 30 September
2.C	Fiume Chiese	From the end of NO-KILL2 to Bacino di Ponte Morandino	River of thalweg Presence of marble trout, grayling, brown trout, rainbow trout	Last Sunday of February - 30 September
2.C/1	Fiume Chiese	From Bacino Ponte Morandino to the begin of NO-KILL3 and from the end of NO-KILL3 to Bacino of malga Boazzo	Alpine river Presence of marble trout, grayling, brown trout, rainbow trout, char	Last Sunday of February - 30 September
2.D	Fiume Chiese	From Bacino of malga Boazzo to the begin NO-KILL4 and from the end of NO-KILL4 to Bacino of malga Bissina	Alpine river Presence of marble trout, brown trout, rainbow trout, char	to be defined - 30 September
2.G	Affluenti Fiume Chiese	from Bacino di malga Bissina to Bacino di malga Boazzo	Alpine stream Presence of brown trout, char	to be defined - 30 September
2.H	Affluenti Fiume Chiese	From Bacino di malga Boazzo to Bacino of Cimego	Alpine stream Presence of brown trout, char	to be defined - 30 September
2.I	Rio di Cimego	all	Alpine brook Presence of brown trout	Last Sunday of February - 30 September
2.K	Rio Rondon, Val del Leno	all	Alpine brook Presence of brown trout, char	to be defined - 30 September
2.L	Rio Giulis e affluenti	all	Alpine brook Presence of brown trout, char	1 May - 30 September
2.M	Rio Sorino e affluenti	all	Alpine brook Presence of brown trout	First Sunday of April - 30 September
2.N	Rio Cron	all	Alpine brook Presence of brown trout	
2.O	Torrente Caffaro e Rio Riccomassimo	all	Alpine brook Presence of brown trout	Last Sunday of February - 30 September
2.P	Rio Olte	all	Alpine brook Presence of brown trout	Last Sunday of February - 30 September
2.Q	Torrente Palvico e affluenti	Stretch of river flowing in the municipality of Ledro	Alpine brook Presence of brown trout	First Sunday of March - 30 September
2.R	Rio Laff, Masi, Pezzè, Morbio	all	Alpine brook Presence of brown trout	Last Sunday of February - 30 September
2.S	Rio Splere, Val del Lupo	all	Alpine brook Presence of brown trout, rainbow trout	Last Sunday of February - 30 September
2.J	Torrente Adana'	all	Alpine brook Presence of brown trout, rainbow trout	Last Sunday of February - 30 September
2.T	Rio Revegler. Sadacla, Marach	all	Alpine brook Presence of brown trout	Last Sunday of February - 30 September

2.U	Rii minori di Condino	all	Alpine brook Presence of brown trout	Last Sunday of February - 30 September
2.V	Rio Redoten	all	Alpine brook Presence of brown trout	to be defined - 30 September
2.W	Rio Ribor e affluenti	all	Alpine brook Presence of brown trout	to be defined - 30 September
2.X	Rio Danerba	all	Alpine brook Presence of brown trout char	to be defined - 30 September
2.Y	Rio S. Barbara e affluenti	all	Alpine brook Presence of brown trout	First Sunday of April – 30 September
2.Z	Rio Lorina e affluenti	all	Alpine brook Presence of brown trout	First Sunday of April – 30 September
3. Associazione Pescatori Dilettanti Alto Sarca				
3.A1 (incl. ZA)	Fiume Sarca	From the confluence with torrente Arnò to Bacino Ponte Pià	River of thalweg Presence of marble trout, brown trout	Last Saturday of February – 31 October
3.A2	Fiume Sarca	From Bacino di Ponte Pià to Bocche del Limarò	River of thalweg Presence of marble trout, brown trout	Last Saturday of February - 31 October
3.B	Fiume Sarca Tione-Pinzolo	from the confluence with Sarca Val Genova to the confluence with Arnò	River of thalweg Presence of marble trout, brown trout	Last Saturday of February - 31 October
3.C (incl. ZC e ZP)	Fiume Sarca di Campiglio	from the source to the confluence with Sarca di Val Genova	River of thalweg Presence of marble trout, brown trout	Last Saturday of February - 30 September
3.E (incl. ZE)	Fiume Sarca di Nambrone	all	River of thalweg Presence of marble trout, brown trout	Last Saturday of February - 30 September
3.F	Fiume Sarca di Val Genova	from the source to the waterfall of Casina Muta, including tributaries	River of thalweg Presence of marble trout, brown trout	Last Saturday of February - 30 September
3.G1 (incl. ZG)	Fiume Sarca di Val Genova basso	From the waterfall of Casina Muta to the confluence with Sarca Campiglio	River of thalweg Presence of marble trout, brown trout	Last Saturday of February - 30 September
3.S	Bacino di Ponte Pià	all	Lake of thalweg Presence of brown trout, marble trout, rainbow trout, perch, pike, carp	Mid Saturday March - 30 November
3.NK0	Fiume Sarca - Zona Ponte Arche - Terme Comano ACQUE NO KILL MOSCA E SPINNING	from 460 mt upstream the confluence with Rio Tanfurin and 350 mt downstream from the same brook	River of thalweg The stretch of river is easily accessible from the state road from Tione to the Terme di Comano. Wide riverbed with holes and currents suitable for both dry fly and nymph. Presence of marble trout, brown trout.	Last Saturday of February - 30 September.
3.NK1	Fiume Sarca - Preore loc. Sesena ACQUE NO KILL SOLO MOSCA	From the naviglio Preore to the confluence with Rio Maftina.	River of thalweg Not very large spaces along the riverbed. Particularly beautiful area. Presence of brown trout, marble trout, hybrids and rare rainbow trout escaped from fish farming.	Last Saturday of February - 30 September.

3.NK2	Fiume Sarca di Spiazzo ACQUE NO KILL SOLO MOSCA	From landfill Cunaccia downstream up to the bicycle bridge near former breeding Cozzini.	River of thalweg Easy access from the provincial road from Spiazzo to Bocenago, not very large spaces along the riverbed, still natural river area. Presence of brown trout, marmorate and many hybrids.	Last Saturday of February - 30 September.
